

FIRE PROTECTION UPDATE

Procedure To Download FP File and Send To The Dept. Of Lands

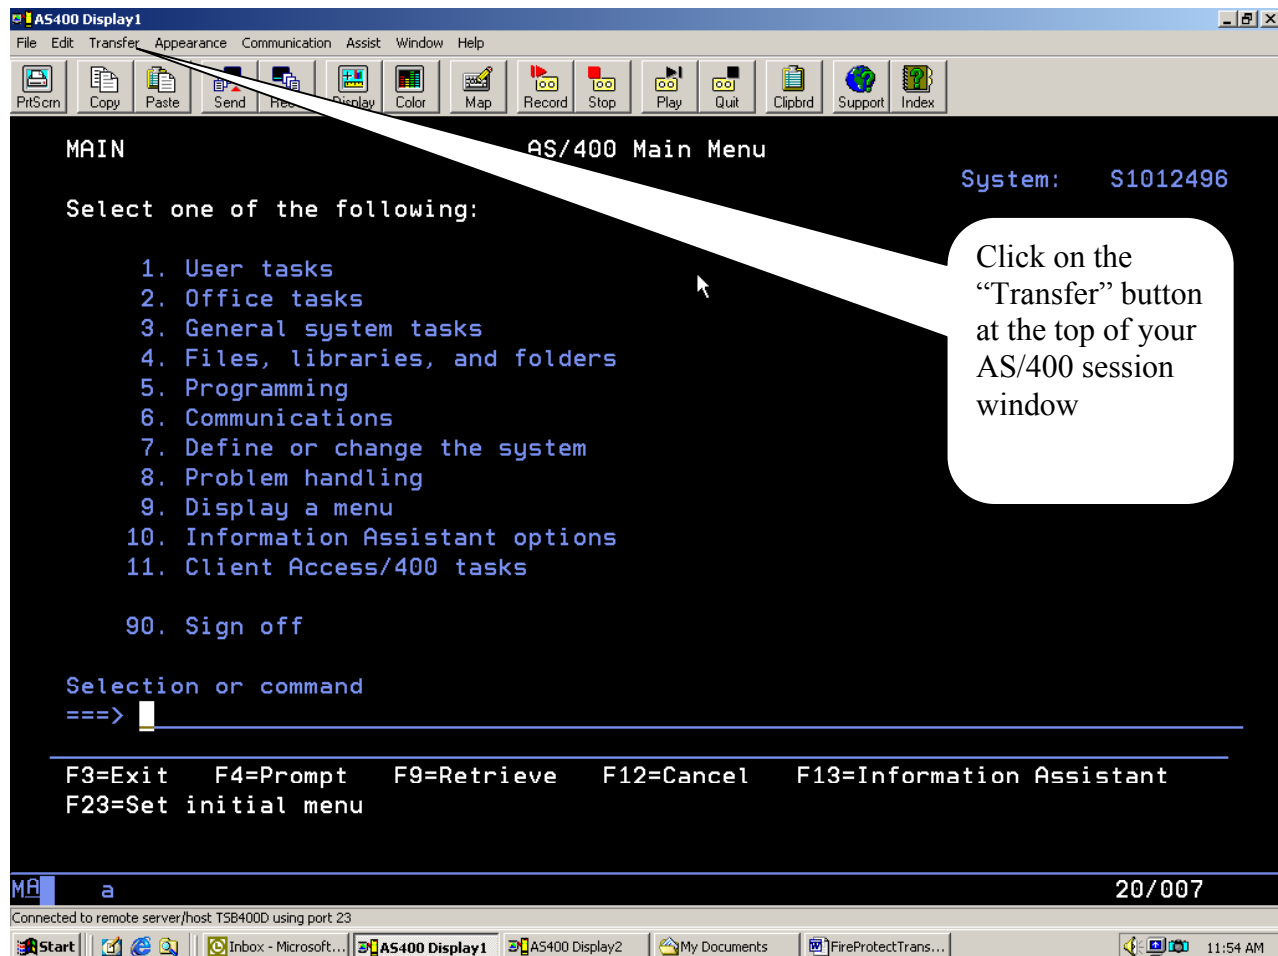

AFTER running FPB360 (Step 1 in Forest Protection Checklist – CL12.):

If the report from FPB360 is blank, it means that there were no changes to report. If this is the case, you do not need to go through the download process. However, you will need to E-Mail Christine Morford at cmorford@idl.state.id.us and let her know that there were no changes to report. If you do not have E-Mail capability, then you will need to call her at 334-0264. If the FPB360 report has information on it, then continue with this download procedure.

If you are using the client access workstation function then this will be relevant, otherwise if you are using some other terminal emulation and file transfer function contact your IS support staff or the Technical Support Bureau for the specific requirements to affect a download.

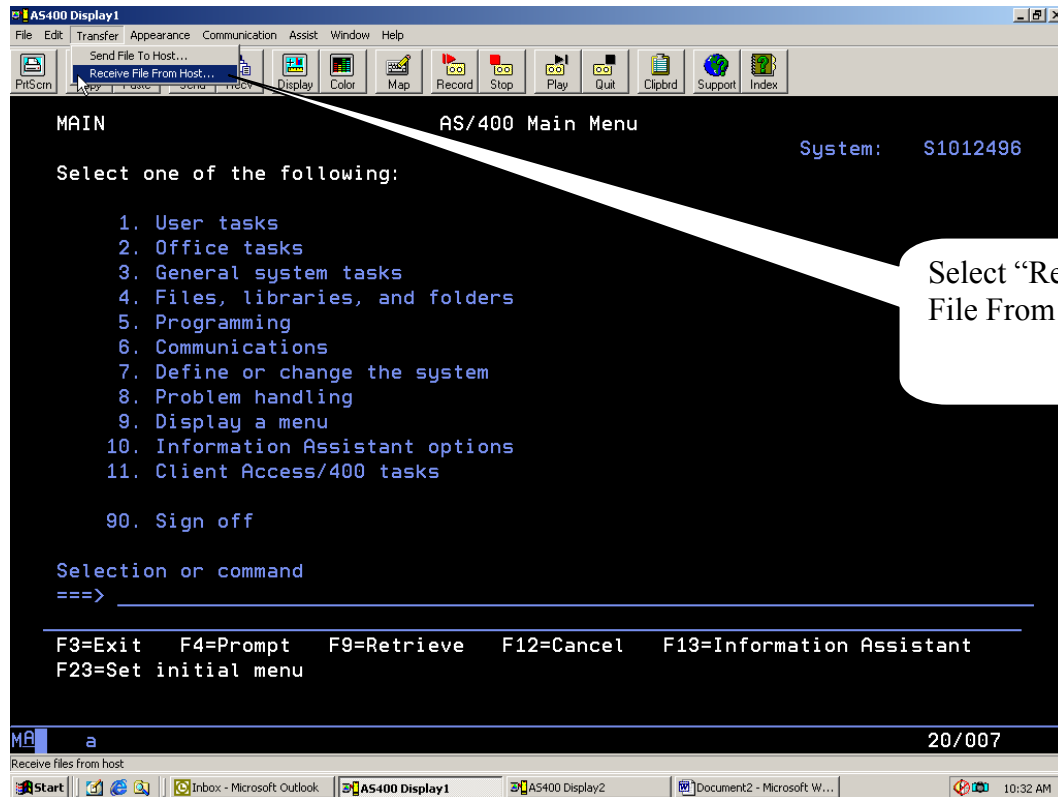

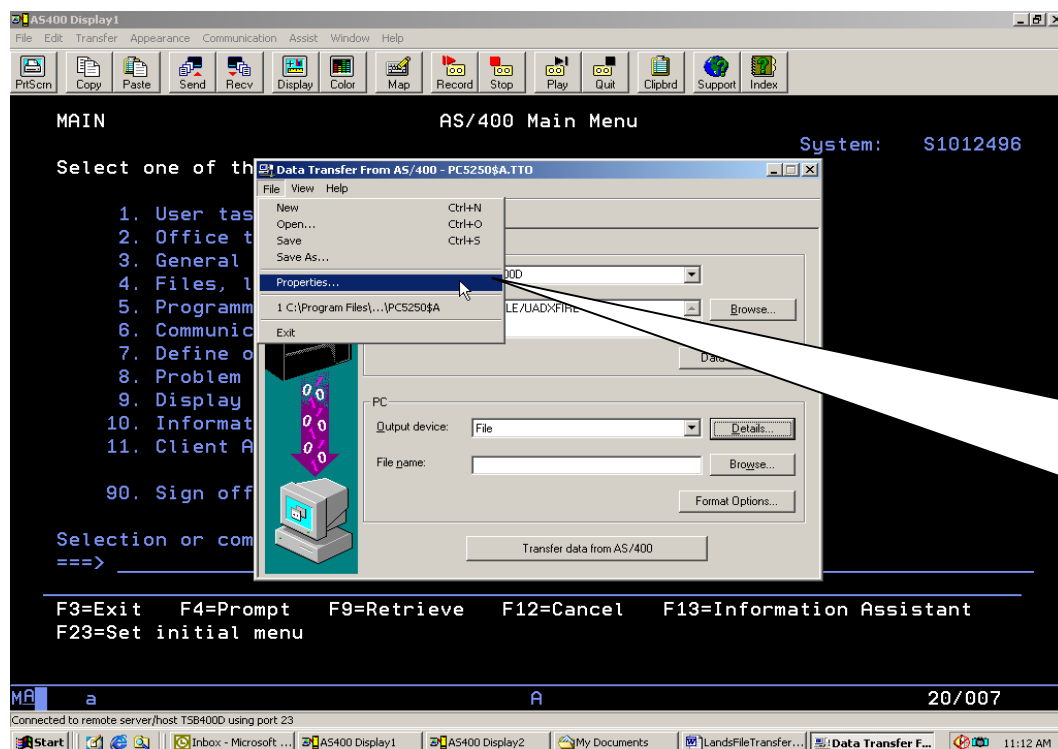

There is one file you will need to transfer from the AS/400 to your personal computer (PC). The file is the Department of Land's Update file named "UADXFIRE" that contains records reflecting parcels that have been added, changed, or deleted. This file is in the AS/400 Library called "UADFILE". Once you have downloaded this file to your PC you then will be able to either copy it to a diskette for mailing to the Department of Lands or attaching it to an outgoing E-Mail to the Department of Lands.

STEP #1

FIRE PROTECTION UPDATE

Procedure To Download FP File and Send To The Dept. Of Lands

STEP #2**STEP #3**

On the Communications tab, select CCSID 65535

And then click “OK”

F3=Exit F4=Prompt F9=Retrieve F12=Cancel F13=Information Assistant
F23=Set initial menu

The screenshot shows the AS/400 Main Menu with a list of options on the left and a 'Data Transfer From AS/400 - PC5250\$B.TTO' dialog box open in the center. The dialog box has two sections: 'AS/400' and 'PC'. In the 'AS/400' section, the 'System name' is set to 'TSB400D' and the 'File name' is 'UADFILE/UADXFIRE'. In the 'PC' section, the 'Output device' is 'File' and the 'File name' is 'C:\My Documents\Benawah.txt'. A 'Transfer data from AS/400' button is at the bottom of the dialog. A speech bubble points to the 'System name' field, and another points to the 'File name' field in the PC section. The bottom of the screen shows a status bar with 'MA b A 20/007' and a taskbar with various icons and the time '4:40 PM'.

FIRE PROTECTION UPDATE

Procedure To Download FP File and Send To The Dept. Of Lands

STEP #11

After you have used this procedure to download the file to your PC, you will now be ready to send the file to the Department of Lands. You can do that one of two ways: 1) Attach the file to an outgoing E-Mail **OR** 2) Copy the text file onto a diskette and mail it the old fashion way. Look for the file in the directory (folder) you downloaded it too in step #8. If you choose to E-Mail the file, you will need to send it to: cmorford@idl.state.id.us . **Be sure to attach the saved txt file.**

Please send the FPB360 report to your LOCAL IDL office (as indicated in the letter from Christine Morford).
